I gave Rike a Taurus and offered Smith a Focus. I did a bit of horse trading to get what they got because your shop was not in line for cars. I TOOK a car from CPOD and WPOD to give to two senior people in PSB because I thought they were deserving. It's been moving so fast that I hadn't had the time to tell you and I planned to discuss with you in our weekly meeting today at 10:00 am to that didn't take place.

Colonel,

PSB received two new vehicles yesterday. Powers, Reboulet and Rike took it upon themselves to determine who would receive what vehicles. Reboulet advised me late yesterday afternoon of the changes. I was not happy then – and obviously I'm not happy now. I will handle any resource allocations unless I delegate that task. This is indicative of the blatant disrespect and disregard I've received since I've been here. It needs to stop.

PSB,
I will reassign vehicles when Daryl returns from vacation.

Thank you.
